THE UNITED STATES MILITARY ACADEMY
SEEKS

ACADEMY PROFESSOR IN THE DEPARTMENT OF FOREIGN LANGUAGES. The United States Military Academy is accepting applications for the position of Academy Professor in the Department of Foreign Languages. All applicants should have a demonstrated capacity for high academic achievement and scholarship and be committed to the academic, military, physical, and ethical development of cadets. Principal responsibilities of the position include academic leadership, teaching, and scholarship in either the German or Russian foreign language program. Specific duties will include faculty development, curriculum development, teaching undergraduate courses, institutional governance, and research. The candidate selected for this position should have previous professional teaching experience, preferably in German or Russian language, linguistics, or literature, at the college/university level. The ability to teach and conduct research in more than one of the department’s eight foreign languages -- Arabic, Chinese, French, German, Persian, Portuguese, Russian, or Spanish -- is desirable; also desirable is competence in instructional technology. Candidates should hold a Ph.D. degree in language, linguistics, literature (or a closely related discipline) or hold a related master’s level degree and be able to obtain a Ph.D. within three years of selection. Candidates should possess an exemplary military record including significant leadership experience, recent experience in an operational unit, completion of advanced military schooling (ILE as a minimum) and field experience in areas related to the subjects taught by the Department. Interested officers should contact Ms. Norma Doyle, Department of Law, United States Military Academy, West Point, NY 10996. Telephone: Commercial: (845) 938-3510 or DSN: 688-3510, e-mail: Norma.Doyle@usma.edu.

ACADEMY PROFESSOR IN THE DEPARTMENT OF LAW. The United States Military Academy is accepting applications for an Academy Professor position in the Department of Law. The individual selected will be responsible for supervising activities within the academic program of the Department of Law; participating in institutional governance and other Academy activities; planning and directing undergraduate education in required and elective courses in military law, constitutional law, criminal law, international law, comparative law, national security law, business law, legal method, and jurisprudence; teaching; and conducting scholarly research. Additionally, the individual selected will have supervisory responsibilities relating to the Department of Law’s Center for the Rule of Law and the cadet summer internship program.
Applicants must possess a J.D. Demonstrated collegiality and excellence in teaching at the college or graduate school level is highly valued. Applicants should have a record of outstanding military service, including recent experience in an operational unit, leadership in law-related assignments, and show high potential for growth and development within the field of scholarship. Applicants must have a strong commitment to the educational, military, ethical and physical development of cadets as well as to leading cadet activities. Applicants must also have a strong commitment to the development of other faculty members. Dedication to excellence in teaching is an absolute requirement. Interested officers should contact: Ms. Nancy Spreer, Department of Physics and Nuclear Engineering, United States Military Academy, West Point, NY 10996. Telephone: Commercial: (845) 938-3323 or DSN: 688-3323, e-mail: Nancy.Spreer@usma.edu.

ACADEMY PROFESSOR IN THE DEPARTMENT OF MATHEMATICAL SCIENCES. The United States Military Academy is accepting applications for the position of Academy Professor in the Department of Mathematical Sciences. Principal responsibilities of the position include academic leadership, teaching, and scholarship. Specific duties will include teaching undergraduate courses in mathematics, operations research, and statistics; development and supervision of military and civilian faculty; leadership for academic programs, to include curriculum development; service on faculty committees; and scholarly research. Commitment to or interest in instructional technology is desirable. The officer selected for this position should have previous professional teaching experience at the college/university level. All applicants should have a demonstrated capacity for further academic achievement and scholarship. Dedication to excellence in teaching and a strong commitment to the educational, military, physical, and ethical development of cadets both inside and outside the classroom are essential requirements of this position. Officers should have an exemplary military performance record, to include successful company level command, branch qualifying field grade experience, recent experience in an operational unit and advanced military schooling (ILE as a minimum). Candidates should hold a Ph.D. in mathematics, applied mathematics, operations research, statistics (or a closely related discipline) or hold a related master's level degree and be able to obtain a Ph.D. within three years of selection. Interested officers should contact Ms. Sharon Moran, Department of Chemistry and Life Science, United States Military Academy, West Point, NY 10996. Telephone: Commercial: (845) 938-3767 or DSN: 688-3767, e-mail: Sharon.Moran@usma.edu.

ACADEMY PROFESSOR IN THE DEPARTMENT OF PHYSICAL EDUCATION. The United States Military Academy is accepting applications for the position of Academy Professor in the Department of Physical Education. All applicants should have a demonstrated capacity for high academic achievement and scholarship and be committed to the academic, military, physical, and ethical development of cadets. Principal responsibilities include leadership of academic and scholarly research programs and teaching undergraduate courses in physical education and exercise science. Specific duties will include teaching, course and program directorship, supervision of military and civilian faculty, curriculum development, faculty development, cadet development outside the classroom, service on faculty committees, and research.
Candidates should have previous college or professional teaching experience and a Ph.D./Ed.D., or master’s degree in the discipline and be able to obtain a doctorate within three years of selection. The doctoral degree should be in physical education, exercise science, or a closely related discipline. Candidates should possess an exemplary military record, to include successful command, field experience related to the disciplines taught in the Department of Physical Education, recent experience in an operational unit, and advanced military schooling (ILE as a minimum). Interested officers should contact MAJ Adrian Biggerstaff, Department of Civil and Mechanical Engineering, United States Military Academy, West Point, NY 10996. Telephone: Commercial: (845) 938-2478 or DSN: 688-2478, e-mail: Adrian.Biggerstaff@usma.edu.

ACADEMY PROFESSOR IN THE DEPARTMENT OF SYSTEMS ENGINEERING. The United States Military Academy is accepting applications for Academy Professor in the Department of Systems Engineering. Principal responsibilities will include leadership of academic and scholarly research programs and teaching undergraduate courses in systems engineering, engineering management, systems management or operations research. Specific duties will include teaching undergraduate courses; leadership of military and civilian faculty; management of academic programs; curriculum development; faculty development, cadet development outside the classroom; service on faculty committees; and research. All applicants should have a demonstrated capacity for high academic achievement and scholarship and be committed to the educational, military, physical, and ethical development of cadets. Applicants must hold a Ph.D. in Systems Engineering, Engineering Management, Industrial Engineering, Information Systems Engineering, Operations Research or closely related discipline; or hold a Master’s degree in the discipline and be able to obtain a Ph.D. within three years of selection. Candidates should possess an exemplary military record, to include successful company-level command, completion of military schooling commensurate with rank, experience in the application of the disciplines taught by the Department of Systems Engineering, field experience in areas related to the subjects taught by the Department of Systems Engineering, recent experience in an operational unit and advanced military schooling (ILE as a minimum). Interested officers should contact Ms. Susan Fortino, Department of Mathematical Sciences, United States Military Academy, West Point, NY 10996. Telephone: Commercial: (845) 938-5315 or DSN: 688-5315, e-mail: susan.fortino2@usma.edu.

The United States Military Academy is an Equal Opportunity, Affirmative Action Employer. Women and minorities are encouraged to apply.
