Index

advection (convection); 41, 42, 47-50
airborne operations; 61-63
air resistance; 2, 3, 73
aircraft; 2, 31-40, 166, 233
ammunition; 183
analysis of variance (ANOVA); 187
arc length; 196
armor; 87, 131, 135, 161, 229, 236, 249
arms control, 103
artillery; 71-86, 87
assumptions; 63

binomial distribution; 173

cipher system; 206
command, control, commo (c^3); 2,7,8,10
communications; 2, 7, 8, 10, 215-217, 223, 249, 153, 161, 206, 212
computational mathematics; 2, 3-5, 8-12
computer algebra system; 36
confidence interval; 250
convergence; 49, 51

damping; 82
derivative; 25, 234, 246
design of experiments; 188, 194
differential equations; 3, 5, 15, 33, 35, 36, 38-39, 65, 66, 72, 74, 80, 83, 131, 236
diffusion; 41, 42, 45-48, 50, 51
discrete mathematics; 2, 3, 5, 8, 9
dynamical system (difference equation); 5, 8, 15, 47, 50, 104, 112-114, 124, 125, 130, 176, 208, 229, 231

eigenvalue, 105
eigenvector; 106, 171
engineering; 25, 41
environment; 41, 46-47, 50
equilibrium; 107
error tolerance; 116, 131

free path length; 89-91
fluid dynamics; 32, 38, 39
frequency analysis; 209
friction; 74

gradient; 172
graphical analysis; 31, 36, 37

infantry; 153, 250
integer programming; 141
integral; 33-36, 43-45, 244, 245
intervisibility; 196

knapsack problem; 147

line-of-sight (LOS); 195
linear programming; 141
linear regression; 105-106
long-term behavior; 107

manufacturing; 8, 10, 87, 141, 153, 191
maintenance; 169, 231, 239
maximum flow; 144
military crest; 198-203
military intelligence; 205
mines; 147, 166
missile; 4, 124, 167
modeling process; 1-12, 13, 16, 22, 25, 31, 38, 41-43, 45, 47, 55, 63, 87, 95, 110, 118, 133, 141, 145, 148, 153-157, 216, 229, 231, 233, 236
motor pool; 41-51, 231
movement; 37, 250
multinomial distribution; 210

network; 141
Newton's Laws; 65, 74, 77
numerical integration; 33-34

optimization; 4, 5, 25, 148, 235, 243-246

parameter; 154, 164
partial differential equations; 41, 45, 47, 49
Parrott Gun; 71, 76, 85
physics; 61, 65, 74
prime number; 206
probability & statistics; 2, 3, 5-7, 10, 11, 249-252
projectile motion; 72-74

random sample; 252
redundancy; 158, 160
reliability; 146, 153, 249
residuals; 178

security; 206, 215, 216
shortest path; 145
signal-to-noise ratio; 187
stability; 107
systems & control; 2, 3, 7-9

Taguchi; 185
Taylor polynomial; 133
tank munitions; 53, 131, 135
terrain; 42, 195, 196, 236, 242
torpedo; 119-123, 127
transformation; 93-94, 97-98
transition matrix; 171
troops; 25, 37

vectors; 88-99
vector calculus; 41, 43-45, 53
