

## Creating, Deploying, and Reviewing Your Blackboard Survey Results

## How to Create, Deploy, and Review Survey Results in Blackboard 9.1

Step 1: From the Control Panel, select **Course Tools** and then select **Tests, Surveys and Pools**.

Step 2: Select **Surveys**.

Step 3: Click **Build Survey**.

Step 4: Provide a name for your survey. The description and instructions are optional.

The screenshot shows the 'Survey Information' form. At the top, there is a header with a book icon and the title 'Survey Information'. Below the header, a note states: 'Enter a Name for the Survey. This is a required field. The name is the title text that appears in the Content Area. Use a description to provide more information about the survey.' A red asterisk icon indicates a required field. The form is divided into sections: '1. Survey Information', 'Name' (with a text input field containing 'Group Feedback'), 'Description' (with a rich text editor toolbar and a large text area), and 'Instructions' (with another rich text editor toolbar). The path is shown as 'body'.

Step 5: Click **submit**.

Step 6: Add Questions to your survey. Click on the drop-down arrow next to **Create Question** to view the various question types.

The screenshot shows the 'Survey Canvas: Group Feedback' interface. At the top, there is a header with a book icon and the title 'Survey Canvas: Group Feedback'. Below the header, a note states: 'The Survey Canvas allows instructors to add and edit questions for users and are not graded. [More Help](#)'. The interface features a navigation bar with buttons for 'Create Question', 'Find Questions', and 'Upload Questions'. The 'Create Question' button is highlighted, and its dropdown menu is open, displaying a list of question types: Calculated Formula, Calculated Numeric, Either/Or, Essay, File Response, Fill in Multiple Blanks, Fill in the Blank, Hot Spot, Jumbled Sentence, Matching, Multiple Answer, Multiple Choice, Opinion Scale/Likert, Ordering, Quiz Bowl, Short Answer, and True/False. The background shows a form with a text input field containing 'Group Feedback' and a 'Create Question drop-down' button.

Step 7: Enter the Question Text.

## **How to Export and Import Surveys to/from other Courses**

The Survey Manager lets you import and export surveys for content reuse and collaboration. Surveys can be reused by exporting the entire survey to your local computer and then importing the file into another course's Survey Manager. When the survey is imported, modifications may be made to customize it for the new course.

### **Export**

Step 1: Go to the **Control Panel** select **Course Tools**, and then select **Tests, Surveys and Pools**.

Step 2: Select **Surveys**.

Step 3: Click the **double-down arrow** and then select **export**.

Step 4: Save the *.zip* file to your computer. Do not open/unzip it.

### **Import**

Step 1: Go to the **Control Panel** of the new course, and then select **Tests, Surveys and Pools**.

Step 2: Select **Surveys**.

Step 3: Click **Import Survey**.

Step 4: Browse to the saved *.zip* file and click **Submit**.

Step 5: The survey uploads and is added to your surveys.

## Reviewing Survey Results in Blackboard 9.1

Results of the survey may be viewed in two ways. You may view them in Blackboard or download the results to a spread sheet.

### View results in Blackboard

### View results in a Spreadsheet

Step 1: From the Blue Course Management section, click **Grade Center**.

Step 2: Click the double drop down arrows  that correspond to the survey column.

Step 3: Choose **Download Results**.

Step 4: On the Download Results screen, leave the defaults. Then click **“Click to download results.”**

Step 5: Choose **“Open with MS Excel (default).”**

Step 6: Click Yes.

Step 7: You may now rearrange the data in any format appropriate to your application.

### Q: How do I view individual responses?

**A:** When a student takes a survey in Blackboard, a green check survey's corresponding grade center column for the student.

is placed in the

*Note: Instructors are unable to view student's individual question responses for a survey. To view individual responses, create a test instead of a survey.*
